1864 - 1946

THE MEMORIAL ORGAN

THIS PIPE ORGAN serves as a memorial to Doctor A. C. Rothermel, '86, who for a period of forty-seven years was associated with our institution as teacher, principal, and president.

The officers of The Doctor A. C. Rothermel Memorial Fund Association and of The General Alumni Association join hands in congratulating the alumni of the college for their cooperation in making this fitting memorial a reality.

Doctor Quincy A. W. Rohrbach, '12, president of the college, inspired and guided the efforts of this enterprise to its successful fruition. Because of his foresight in the planning of the auditorium facilities, provisions for the eventual installation of an organ were made. These have resulted in the saving of a considerable sum of money at this time.

The organ which is being dedicated today was built by the M. P. Möller Company, Hagerstown, Maryland. The organ is a magnificent four-manual instrument comprising great, swell, choir, and solo features, together with a pedal board of thirty-two keys. In all, there are 2679 speaking pipes and twenty-five chime bells. The various stops are controlled by ninety-eight tilting tablets, forty-one of which function in inter-manual and intra-manual operation. This fine musical instrument should prove of inestimable value to generations of teachers who will receive their education at this college.

On Alumni Day in 1947, in a eulogy, the Reverend Clarence R. Rahn, '18, said: "We should translate the flowers of love in our hearts for Doctor Rothermel into a memorial organ." That translation has taken place.

For The Doctor A. C. Rothermel Memorial Fund Association
