Dear John,

I have presented a contract for a $2\frac{1}{2}$ stop church organ to the above college and they are interested in having this supplied with an adjustable bench. They do not like the wood slides that other companies use under the bottom of the bench.

I have quotes \$225.00 plus 8% for this additional equipment.

Also, they would like to purchase four additional benches, adjustable and I don't have a price for separate benches - adjustable.

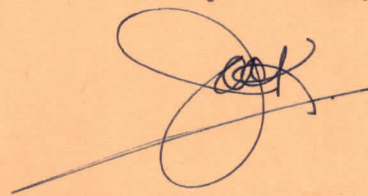

I assume that our schedule price of \$225.00 is to be used at the time we build a complete instrument.

How much do you want for an adjustable bench as a separate item ???

260⁰⁰
Fol B Hag

Can you send me a sketch of our construction on an adjustable bench ??

Many thanks,

These would all be shipped @ the same time that we deliver the $2\frac{1}{2}$ stop Organ - no additional freight required.
