

OHS database organ# 66989:

As of October 30, 2022, the pipe organ at St. John's Lutheran Church, Romeo, Michigan, continues in active service. The instrument had been maintained at times by Aebel Pipe Organ Tuning & Service. Earlier this year David Wigton provided some repairs and tuning.

There are some exposed pipes and some pipes in a chamber at the left; none of the instrument is behind the similar facade at the right. The CRESCENDO pedal provides coordinated changes to the SWELL manual as well as to the GREAT.

PEDAL:	SWELL:	GREAT:
