BRASSE'S VAPOMENTHIA SALVE

WILL NOT STAIN THE CLOTHES

35c, 60c, and \$1.25 at all drug stores or sent prepaid by Brasse Drug Co., N. Wilkesboro, N. C.

The Nathaniel Harding Memorial Organ given by the members of St. Peter's Parish and friends to the memory of the late Rev. Nathaniel Harding will be dedicated tomorrow morning at the eleven o'clock service by the Rt. Rev. Thos. C. Darst, D.D. Bishop of East Carolina. The organ will be used at this service for the first time.

The memorial tablet on the chancel case of the organ bears the following inscription:

To the Glory of God and in Loving Memory of
The Rev. Nathaniel Harding
Born March 6th, 1847
Died June 27th, 1917
Rector of this Church 43 Years
"He being dead yet speaketh". He brews XI V.

The organ was built by the Hall Organ Co. of New Haven, Conn., and is the latest thing in organ building. It was 9 months in building and is not only a very complete and well balanced instrument tonally but contains many unique features found only in the largest and most modern instruments.

The electric action used allows the entire organ including the Echo over a hundred feet away to be controlled by a detached keyboard or console. The only connection between the various units of the organ and the console is an electric cable containing hundreds of wires through which the current passes.

The Echo organ placed in the tower room at the opposite end of the church from the main organ is enclosed in a separate swell box with shutters that can be opened and closed by the organist at the keyboard by means of

electric contacts and pneumatic motors. In this organ are a set of Cathedral chimes of delicate and beautiful tone also a Vox Humana, Muted Viol, Unda Maris and Fern Flute all stops of rare beauty.

The main organ is unusual because of the predominance of the full round Diapason quality of tone, the foundation of all good organs. In addition are the varying shades of string tones, flutes and reeds of the later the Tuba and Oboe have pleasing characteristic usually found only in symphony orchestras.

The orchestral harp situated in the great organ is a distinct innovation of unusual beauty.

The entire organ contains twenty-four speaking stops besides the harp and chimes, fourteen hundred and thirteen pipes. The largest pipe in the organ is sixteen feet long and one foot square while the smallest is five-eighths of an inch long and an eighth of an inch in diameter. There are over six thousand valves and five miles of electric wire in the organ.

The wind is supplied by an electric blower run by a two horse motor. The current for the action is supplied by a ten volt generator run by city current. The main organ weighs five tons and the Echo organ one ton.

The organ aside from having wonderful tone and power is contained in a beautiful case. The wood work is in black walnut to match the finish and furniture of the church and the display pipes are in gold bronze.

Too much cannot be said in favor of the two gentlemen who installed the organ, Mr. George Thompson and Mr.

Robert Goeckler of New Haven. Besides doing their work in the most satisfactory manner they were ever courteous and patient with a congregation asking a multitude of questions, always willing to arrange their work so that the services of the church might not be interfered with. They will always be pleasantly remembered in Washington.

Organ Lamp to Be Blessed At St. Peter's Church

In connection with the dedication of the Nathaniel Harding Memorial organ there will be blessed at the morning service a brass organ lamp given as a testimonial of the services of Miss Bettie Hoyt, as organist in St. Peter's church. Miss Hoyt was organist before the civil war in the old church that stood on Main street opposite the home of Mr. T. H. Myers and then served for many years in the new church. She was also the first to play the New Hall organ that will be dedicated tomorrow.

The lamp bears the following inscription:

To the Glory of God and in Commemoration of Thirty Years of Faithful Service of Elizabeth Mutter Blount Hoyt As Organist in this Church is this Lamp Presented by her nieces and nephews great-nieces and nephews and great-great nieces and nephews
