

**THE UNIVERSALIST CHURCH ORGAN.—**  
The new Organ which Mr. Bohler, of this city, is building for Rev. Mr. Barber's Church, is nearly completed. It is expected that it will be put into the Church early next week and be dedicated the following Sunday, that is, the second Sunday in this month. We understand that Rev. T. J. SAWYER, D. D., of New York, has been engaged to preach the Sermon on the occasion, and it is also expected that other distinguished Clergymen from abroad will be present.

We congratulate the members of the Universalist congregation on their pleasing prospects. They have long had one of the best Choirs in the city, but no church music is what it should be without a good Organ. It assists the musical portion of the service wonderfully. Its deep tones help the soul upward. Mingling with the human voice, they sound through the church and thrill every nerve of the worshipper, making him exclaim in his heart, "Thou art worthy, O Lord, to receive glory, honor and power, for thou hast created all things, and for thy pleasure they are and were created."

We presume that Mr. Bohler, our skillful townsman, will give them a good instrument and that it will add much to the interest of the services of that flourishing church.
