 Width of Key-bed _____ Stop Controls _____
 No. Manuals Four Wind Pressure See spec.
 To be completed Dec. 15, 1929 Blower pipe furnished by Church

SPECIFICATIONS

The proposition contemplates:-

- 1 The re-arrangement of the present Great Organ, so that it constitutes an Open Chorus Organ. This requires the addition of two new stops to replace stops to be used in a new Closed Great, and the re-voicing of the present Trumpet to meet the requirements of the Chorus.
- 2 The installation of a new Enclosed Great consisting of two old stops from the present organ and three new stops.
- 3 The installation of a new Solo Organ of five stops on ten inch wind pressure.
- 4 The installation of a four stop Floating String organ, playing on all manuals.
- 5 The installation of a 49 note Deagan Harp Celesta, playing on two manuals.
- 6 The installation of a 21 note Deagan Cathedral Chime, playing on two manuals.
- 7 The extension of all present 16' and 8' manual stops to 73 pipes.
- 8 The augmentation of the Pedal by the new Solo Tuba at 16' pitch.
- 9 A new Four Manual Console of our latest design together with the necessary changes in wiring, and the elimination of the present relay system to meet our present mechanical methods.
- 10 Installation to be in all respects finished and completed on or before December 15, 1929.

We are to furnish and install display pipes to duplicate those now in the church, and the instrument as a whole is to be cleaned, tone regulated, tuned and finished in a first class workmanlike manner.
