

Information about the organ at First United Methodist Church (Waco)
that was used prior to the present organ:

David Lintz, Director of the Red Men Museum and Library (Waco, Tx.),
referred me to John Dill of Gainesville, Tx. (Tel. 940—665 9911)

I called John Dill about Feb.2, 2005, receiving the following information:

Generally, the organ at Waco's FUMC was in poor condition. He removed
the pipe work except for some wanted as momentos by employees. The rest
was demolished.

Two ranks are in Forestburg Baptist Church at Forestburg, Texas.

Two ranks are going into a new organ at the FUMC at Waxahachie, TX.

Forty four pipes will be used for the organ at the new FUMC at Forestburg,
Texas, saving the church about \$10,000.00.
