 now erecting a new and powerful organ recent- ly built for them by the celebrated manufactur- ers Messrs: E. & G. G. Hook, of Boston. In these exciting times we are aware it is difficult for us to turn our attention to anything but the state of the country, yet we think the following description of the new instrument which we have been favored with, will inter- est all lovers of music here as well as elsewhere. The case is made of black walnut, is 15 1-2 feet high, finnished in a plain Romanesque style and presents a rich and imposing appearance. It has two manuals of 56 notes each, 20 pedal notes and a compass, including pedals, from 	qu Ve the her] sus nee (nee gra org Vo
