

Memorandum of Agreement,

Made this.....

day of..... A. D., 19... , by and between M. P. MÖLLER, of Hagers-
town, Maryland, party of the first part, and

Grace M.E. Church - Wichita Kansas

party of the second part.

Witnesseth:- That the party of the first part hereby agrees to build an organ after and
according to the annexed specifications and plans to be hereafter approved by party of second
part, and to erect it in *the above church*

ready for use on or before the *15th* day of *Dec* A. D., 19... ,
or as soon thereafter as possible in the event of delays beyond his control.

2. The party of the first part agrees that the organ when completed shall be first class, free from
defects in material or workmanship, and that the party of the second part may have the organ ex-
amined immediately on completion, by a competent and disinterested expert, and if said examina-
tion shows that the organ does not conform with this agreement the party of the first part agrees
to remedy said defects at his own expense.

3. The party of the first part guarantees the action and construction of the organ for a term of
five years from date of completion and agrees to correct defects in material or workmanship that
may be brought to his attention within that time, without cost to the party of the second part.
This does not include tuning or ordinary care of the organ (or electric motors which are guaranteed
by the manufacturers for one year).

4. In consideration of the above, the party of the second part agrees to pay to M. P. Moller, or
his order, the sum of **Five Thousand Three Hundred Fifty Dollars (\$5,350.00)**

5750.00 *2875 Cash on completion*
AS FOLLOWS: *Cash on completion* *1475 balance from date*
of completion *1475 - 2 years from date of completion*
with int. at 6%

5. The party of the second part also agrees that the building will be in proper condition for the
installation of the organ *three* weeks previous to date of completion; that they will
allow, free from interruption, suitable convenience and opportunity for the installation in the build-
ing, provide such a condition of quiet as is necessary for the proper tone regulation and tuning of
the instrument, and necessary light, heat and power.

6. The party of the second part also agrees to insure the organ or its parts against loss by fire,
water, etc., as soon as the parts are placed in the building, for the benefit of the parties hereto, as
their interests may appear.

7. When water or electric motor is included in specifications, party of the second part agrees to provide foundation and enclosures when necessary; to furnish and install wind conductor between blower and organ; to do all wiring or plumbing connected therewith; to install such lights as may be needed for the erection and future care of the organ, and do any necessary cutting of floors, partitions, or other parts of the building. In the event that local regulations require the use of an automatic remote control motor starter, electrical conduits or other special equipment they are to be furnished by party of second part.

8. It is mutually agreed that the title and ownership of the organ shall remain with party of the first part until the contract price, before mentioned, has been fully paid, after which the instrument shall become the property of the party of the second part; also that all verbal agreements and understandings are merged in this contract, and the specifications and details of construction attached hereto.

In Witness Whereof we have hereunto set our hands and seals this day and year first above written.

We have furnished organs for many of America's leading theatres among which are some of the largest instruments ever built for theatre use.

We mention in particular the four manual instruments in Poli's Theatre, New Haven, Conn.; Hippodrome Theatre, Lancaster, Pa.; Capitol Theatre, Davenport, Ia.; Arcade Theatre, Reading, Pa.

We have built fifty-five organs for theatres owned or controlled by the Loew Enterprise, thirty-three for William Fox and furnish all instruments for theatres owned by several other noted firms.

Our systems of action, both tubular and electric, are the most simple in construction, containing the fewest parts and the most reliable.

We have also furnished a large number of instruments for residences, lodge rooms and other special purposes, a detailed list of which will be sent on request.
