

PEMBERTON CHURCH GETS NEW PIPE ORGAN

Pemberton, Aug. 6.—Workmen are busy installing a new, \$5000 electrical pipe organ in the New Grace Episcopal Church, on Elizabeth street. Installation is to be completed within two weeks.

The organ will be tested by prominent organists before it is formally dedicated in September. Mrs. Florence Jarvis is the church organist.

The \$30,000 stone structure which replaced a frame structure on Hanover street, is now almost completed. Interior decorating is well underway and landscaping in front of the church is being done.

Grace Episcopal New Organ Installation
