Dear Daniels:

Enclosed is check in amount of $2,727.50 in full payment on the above portable organ. This came from Beguelin and he says that he had not received the invoice, so I assume you sent it direct to the college. This closes this deal, I believe.

As usual, there were breakages in this shipment. A Bourdon was cracked at a mitre, some mars on the case finish etc. And there were four "warbly" strings which never did come out just right, but in general the job is good and the school is satisfied.

It would be a good idea to jog the shipping department on the matter of how these are packed, however, as in the six portables which have been shipped here so far, only one came through in good shape and that was at Second Presbyterian Church, Kansas City. All the others have had some breakage, up to the Independence job which had a completely wrecked pedal keys and bad case mar. The pedal key was of course, the fault of the railroad.

Sincerely,

M. P. MOLLER, INC.

W. A. Brummer
