DELIVERY

Project work can take place within approximately Eight (8) to Twelve (12) months from date of order.

INSTALLATION

All installation work will be performed by qualified factory representatives of Zimmer Organs.

VOICING

All pipework in the organ will be voiced, and regulated to the acoustical environment in which it is installed. All such work will be performed on site by representatives of Cornel Zimmer Organbuilders. The voicers will require an extended period (up to several days) of silence in the building in which to properly perform their tasks. They will work around the normal church schedule including funeral services, rehearsals, and weekly cleaning.

WARRANTY

Any maintenance which may be required will be performed by representatives of Cornel Zimmer Organbuilders or by service personnel approved by Cornel Zimmer Organbuilders. Any new console components, new pipes, new windchests and all related components therein are covered by a ten (10) year warranty on parts and workmanship.

PRICING

Installed and ready for use:
