NEW ORGAN.—Another new organ has just been built (at a cost of $700) for St. Paul's Church, Yorkville, by Mr. Lye, of this city, to take place of the former one sold to the new Wesleyan Church, Thorold. The Church of St. Paul's has obtained a much better instrument by the change, and it is gratifying to know that the whole of the work has been done in the city; and we would advise those in want of organs to see this very creditable specimen before lookin elsewhere. The organ was duly tested by Mr. Carter of St. James' Cathedral, in the presence of a large number of ladies and gentlemen, including the clergy and churchwardens, who were highly pleased with their new instrument, which, in the hands of Mr. Carter, discoursed sweet and varied music, to the delight of the listeners. The organ is enclosed in a very neat Gothic case, in imitation of oak. The names of the stops are as follows:—1. Stop Diapason Bass; 2 Clarabella; 3. Open Diapason; 4 Dulciana; 5. Flute; 6. Principal; 7. Fifteenth; 8. Bourdon; 9. Pedal copula to keys; also, a bellows signa, a general swell, and an octave and a third of pedals.
