

CHURCH OF THE SACRED HEART.
Its New Organ and Beautiful Altar and Interior.

The new Church of the Sacred Heart, Clermont avenue, of which the Rev. John McCullum is pastor, will within a very brief interval present one of the handsomest interiors among the churches of this diocese. The new organ, mention of the opening of which on the 17th inst. was recently made, is now completed, and a beautiful altar is in process of erection, which in artistic design and elegance of finish promise to be unsurpassed. The new instrument is of the largest class and one of the very best which has been built by Messrs. Jardine & Co., the well known firm of organ builders. It contains three banks of keys, two and a half octaves of pedals, forty-five stops and combinations, two thousand pipes and a full chime of bells, and is equipped with all the latest pneumatic and other appliances. It is inclosed in a very handsome case, corresponding in decoration and design to the architectural features of the church, and presents a massive, elegant appearance. Its extent and general character may be gathered from the following

SCHEME :
GREAT ORGAN.

Compass, C C to A—48 notes.

Feet.		Feet.
