

DEDICATE NEW ORGAN TO'NIGHT IN CHURCH AT SENECA FALLS

Seneca Falls, Dec. 1.—An organ recital to dedicate the new organ which Episcopal Church will be held in the has just been installed in the Trinity church Thursday evening at 8 o'clock.

Harry L. Vibbard, a composer of ability and master of music and head of the organ and piano department at Syracuse University, has been secured to give the recital. Dr. Vibbard is also organist at the First Baptist Church in Syracuse.

More than thirty years ago a fund was started to install a new organ, but little progress was made until this year. At Easter time, it was definitely decided to make a drive so that the organ could be purchased this year. The results were so satisfactory that the order was immediately placed, and the organ has been installed by the M. P. Moller Organ Company of Hagerstown, Md.
