Dear Mon,

enclosed please find installation data report,
copy of specifications, and tape of cost data
for above mentioned church.

I will make the drawings of the church during the
week of April 11, 1966 and submit them to you then.
I will indicate cable lengths, wind conductor, etc.
on the drawings.

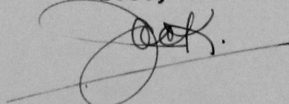

I talked with Harold Ocker regarding the chimes
and he said that while we don't like to use the
"under the manuals" contact system, it is possible
to do so. I have planned on removing these from
the electronic and placing them under the new Artiste
Great manual. They are attached with four screws
and should be a very simple job. I did not charge
extra for this. We do not have to touch the chimes
or chime cable.

I did not charge extra for the Birch finish as
Riley has agreed to furnish this in Birch or
Mahogany at the same price - I believe the Birch
is cheaper in material cost.

I believe we may be able to collect a number of
these for shipment at the same time. You might
work toward St. Cyril, St. Patricks (Norhtfield)
St. Donalds (Roseville), St. Claude (Mt. Clemens)
and St. Bernadette's (Dearborn - if we go ahead
with this one). We have four orders for sure and
possibly five and these are all in the Detroit area.

Sorry about the delay in church drawings, but this will
be the usual balcony installation.

Best,
