COUPLERS

Great to Pedal

Swell to Pedal

Swell to Great

ADJUSTABLE COMBINATIONS

3 pistons to Great and Pedal

3 pistons to Swell Organ

ACCESSORIES

One Balanced Swell Pedal

One Balanced Crescendo Pedal

The entire organ is under expression except the Open Diapason. The mechanism is electro-pneumatic. The stop-action is operated by tilting tablets placed over the upper key-board.

The case may be either of Ash or Birch with an ornamental grill or groups of display pipes, and the console in the case as illustrated on the first page. The console can also be detached at a slight extra cost.

The wind is furnished by an electric blower driven by a $\frac{1}{2}$ H.P. motor, and the current for the mechanism is obtained from a transformer.

This instrument has a great variety of tone colors and its volume is sufficient for small Churches. Being a genuine Pipe Organ, it is in the opinion of connoisseurs tonally superior to any of the electronic instruments or reed organs, and costs little more.

The dimensions of this organ are 8 feet wide, 4 feet deep and 10 feet high.

The dimensions of the console either in the case or detached are about 4 feet 6 inches square including the pedal-board.

SPECIFICATION

| | | |
|--------------------|----------|---------|
| Compass of Manuals | CC to C | 61 Keys |
| Compass of Pedals | CCC to G | 32 Keys |
