Note: One Choir intramanual knob will be reassigned for a stop control.

## PEDAL ORGAN

4'	Holzflöte	Existing Great pipes, new chest	44 notes.
2'	"		
4'	Schalmei	Existing Swell pipes, new chest	32 notes.

This proposal includes all necessary re-arrangement of existing pipes, their proper re-racking and the installation of the new pipes in the organ including such wind connections and electrical connections as are required for their proper functioning. In addition, console changes will be accomplished in order to make the foregoing listed stops properly playable. Both the new work installed and the existing pipework will be tonally regulated to insure an artistically integrated ensemble.

The combination action, couplers and stops other than those above listed will remain unchanged in the console.
