

## New Pipe Organ for Mahanoy City.

The pipe organ for the new St. Paul's Reformed church at Mahanoy City arrived and is now being placed by master mechanics. They expect to have it ready for use by Christmas day. It is of duplex tubular pneumatic action, and has two keyboards. It is worth \$2,500. The congregation had written to Andrew Carnegie, Pittsburg millionaire master, for assistance, and receiving no reply were just about to abandon the idea of purchasing the organ when the latter arrived from him stating that he would assist the church in buying the organ.
