Left:	Center:	Right:
	Sw/Cresc	Gt/Ped, SFZ
	Shoes	Pedal 1-2

The organ is installed in one chamber on the right side of the chancel. Originally there were 4 shades on the nave side and the rest on the choir side, but the nave side shades were blocked off years ago.

Repair history:

- 1956 Rebuilding included new Klann CA and Reisner switches in console, Recovering of all reservoirs, replace all seats & checks, releather offsets & chimes, replace relay switches with Reisner, rebuild shade primary action, replace Tremolo with Skinner style, clean pipes and install sleeves on string basses, and install Durst rectifier
- 1966 primaries releathered
- 1972 all leather treated with silicone, chime action rebuilt, Trumpet replaced Oboe, Oboe replaced Vox Humana, organ cleaned
- 1985 four reservoirs recovered
- 1986 organ releathered
- 1994 Durst rectifier replaced with Astron
- 2005 Solid-state relay installed, Tremolo repaired
