#### **NOTES**

This Wicks was originally built for All Saints Lutheran Church in Federal Way, Washington - and was a stock model divided 1-manual, 1-rank organ with a unified flute that was 12 stopped wood, 8 capped metal, 29 koppel flutes, and 37 open metal trebles. When All Saints got a new Allen electronic organ ca. 1980, Cox Music of Seattle took the Wicks in-trade. It was subsequently sold to Seattle resident Norman D. Miller. The organ was installed in Norman's Seattle residence by Mr. Miller assisted by long-time friend and Balcom and Vaughan President, William J. Bunch.

In 1984, Mr. Miller had Balcom and Vaughan expand the organ to 2-manuals with new keyboards. The original drawknob stop rail was replaced with a rocker tablet assembly. Four ranks were added: 4' Principal, 2' Block Flöte, 1-1/3' Quinte, and 8' Cromorne. A 16' electronic extension was also added to the 8' Gedeckt.

Later, in 2003, Frans W.M. Bosman of Oregon added a Salicional, Celeste, and Trompette to the organ bringing it to 8-ranks.

The original Wicks keyboard from this organ now plays the voicing machine for Puget Sound Pipe Organs of Stanwood, Washington.
